- Degree awarded with distinction and accreditation by SAS Academy
- Relevant courses: Business Analytics, Consumer Intelligence, Data Visualisation & Storytelling, Data Analysis Tools, Coding, Data Analytics, Machine Learning & AI for Business
- Invited author, Data Science for Predictive UX Design (forthcoming, 2026)

STATE UNIVERSITY OF NEW YORK, UNIVERSITY AT BUFFALO
BA in Communication — 2019 - 2021
- Relevant courses: Statistics for Social Sciences, Risk Communication

REPUBLIC POLYTECHNIC — Singapore
Diploma in Business Information Systems — 2015-2018
- Relevant courses: Sales and Marketing Information Systems, Mathematics, Introduction to Programming, Database Systems, Object-Oriented Programming, Data Communications and Networking, Systems Analysis and Design, Business Intelligence

WORK EXPERIENCE

LEGAL 500 — London, UK
Data Presentation Specialist — Mar 2025 - Oct 2026
- Built a Python/Streamlit tool to verify automated counts taken from law firm submissions, replacing a manual row-by-row check and correcting errors in over half of 800+ records across 43 firms in nine jurisdictions
- Processed, validated and visualised legal benchmarking data across 150+ performance reports using Excel, Power BI, Tableau and Omni, including personal and peer quality control
- Independently developed a semi-automated reporting pipeline using Excel, CSV exports and Adobe InDesign Data Merge, reducing manual production time by ~55-60%
- Collaborated on driving improvements to data visualisation in a key product, reducing manual layout and composition effort by approximately 50% while improving the clarity of analytical insights for product, sales and editorial teams

REGENT'S UNIVERSITY LONDON — London, UK
Data Science Consultant Intern — Jul 2024 - Oct 2024
- Designed and implemented a Power BI dashboard for non-technical stakeholders to visualise student placement data, contributing to a projected 6-fold improvement in UKVI compliance response speed
- Diagnosed inefficiencies in data processes and drove resolution through requirements gathering and stakeholder engagement

Data and Administration Intern — Jul 2024 - Sep 2024
- Delivered a data consultancy project (concurrently with the placements dashboard work above) identifying operational weaknesses from 3 months of primary research methods. Presented recommendations projected a ~200% efficiency increase
- Managed data processing and results administration for the Regent's English Proficiency Test (600+ candidates)

STANDARD CHARTERED BANK — Singapore
Branch Sales and Service Manager — May 2022 - Oct 2022
- Completed 8 IBF certifications in capital markets, financial advisory, and investment products for regulatory training

SKILLS

Stack: Python, SQL, Power BI, Tableau, SAS JMP, Excel/Google Sheets, Git/GitHub, AI coding tools (Claude Code, Codex)
Languages: English (native), French (professional proficiency, DELF B2), Mandarin (conversational)

VOLUNTEERING

OLIO — London, UK
Squad Captain and Volunteer Redistributor — 2023 - Present
- Lead 12 volunteer squads, owning rota coverage, onboarding, merchant liaison, issue escalation and conflict resolution
